### **AirSep To Receive U.S. Department of Commerce's Export Award**

Buffalo, NY – AirSep Corporation announced today that it will receive the U.S. Department of Commerce's Export Achievement Award in a ceremony at the AirSep facilities at 260 Creekside Drive at noon on Monday, May 13. Rep. Thomas M. Reynolds (R-NY27) and Maria Cino, Director General of the U.S. Department of Commerce, will present the award to AirSep in honor of its export excellence. As a worldwide manufacturer of PSA oxygen generating systems, respiratory equipment, sleep therapeutic and diagnostic systems, and contract electronic circuitry, AirSep exports its medical and commercial products to more than 100 countries around the globe.

AirSep will open its doors for a brief production facility tour starting in its main building at 290 Creekside at 11:30 a.m., followed by the award ceremony.

James C. Mariano, Director of the U.S. Department of Commerce's Buffalo U.S. Export Assistance Center said, "AirSep is the only company in all of Upstate New York to receive this honor." The Department of Commerce recognizes businesses that take advantage of services offered through the Department of Commerce and strive for trade relations and export excellence.

AirSep spokesperson said, "This is an especially meaningful honor for AirSep Corporation. We are fortunate that at a time when many businesses have contracted considerably, we continue to find innovative ways to orient our business and partnerships such as those provided through the U.S. Department of Commerce, which help to generate considerably more trade options, particularly for mid-sized companies like AirSep. We are uniquely positioned geographically, logistically and certainly, by product distinction, to take advantage of these export opportunities and continue to assist in the economic growth of this region in particular."

AirSep has recently introduced several new products into the marketplace, including the LifeStyle Portable Oxygen Concentrator, which uses the most advanced technology in the industry to produce a unit that is the world's lightest, most compact concentrator for highly mobile and traveling oxygen therapy patients.

AirSep also operates several additional local facilities for its various divisions, including Medical Products at 401 Creekside Drive, Medcare Diagnostics at 435 Creekside Drive and EJE Research at 20 French Road, Cheektowaga.
